

MEMBER STATEMENT

Clare Stafford

I have worked within mental health for 25 years and it is my interest and passion. My background is as a senior manager within the NHS and voluntary sector and I have significant breadth and depth of experience in the mental health field including two years as a Senior Policy Advisor for the Department of Health.

I became CEO of the Charlie Waller Memorial Trust in May 2014 and since then have overseen an increase in our charitable activities. In particular, I have increased the training and resources we offer to better equip teachers, parents and pupils to support mental health and wellbeing.

My reason for wanting to join the Cranbury College Management Committee is to contribute to supporting the school in giving vulnerable pupils the skills they need for a fulfilling life.
