

MEMBER STATEMENT**Keith Farman**

I was appointed a full community member of the Management Committee in November 2015 so my contribution to date is limited, although I was also appointed to chair the Finance Pay and Staffing Sub-committee in June 2015.

My personal background is in finance, as a member of the Chartered Institute of Management Accountants, with many years of experience both in commercial organisations and in further education (as Head of Finance at Reading College).

My main aim is to ensure that Cranbury College use all their financial resources to achieve the best possible outcomes for pupils. As part of the function of the Finance Pay and Staffing Sub-committee I scrutinise the budget build and subsequently ensure that the Leadership Team work within the budget parameters to achieve the best possible results.

I intend to maximise our scrutiny by examining benchmarking efforts made by the college in both financial and overall pupil outcomes.
