

MEMBER STATEMENT

Simon Lovelock

I have worked at Cranbury College since Sept 2015. I have attended 6 management committee meetings to date. I feel my impact, as an associate member of the committee, has been as follows:

- I have helped to draft, amend and review whole-school policies – leading to clarity of school aims and objectives
- I have participated in discussions around financial planning and budget implementation – helping to support a wider committee understanding of the school's current commercial position
- I have reported Ofsted feedback and recommendations to the management committee (following Jan 16 inspection) - in order to inform whole-school strategic action planning

I have sourced appropriate candidates for current committee vacancies to broaden community cohesion and professional expertise
